

Course: IT114-006-S2025

Assignment: IT114 JavaProblems

Student: Muhammad K. (muk)

Status: Submitted | Worksheet Progress: 100.00%

Potential Grade: 10.10/10.00 (101.00%)

Received Grade: 0.00/10.00 (0.00%)

Grading Link: <https://learn.ethereallab.app/assignment/v3/IT114-006-S2025/it114-java-problems/grading/muk>

Instructions

1. Ensure you read all instructions and objectives before starting.
2. Create a new branch from `main` called `M2-Homework`
 1. `git checkout main` (ensure proper starting branch)
 2. `git pull origin main` (ensure history is up to date)
 3. `git checkout -b M2-Homework` (create and switch to branch)
3. Copy the template code from here: [GitHub Repository - M2 Homework](#)
 - It includes Problems 1-4 and a `BaseClass`. Put all into an `M2` folder or similar (adjust package reference at the top if you chose a different folder name).
 - Immediately record to history
 1. `git add .`
 2. `git commit -m "adding M2 HW baseline files"`
 3. `git push origin M2-Homework`
 4. Create a Pull Request from `M2-Homework` to `main` and keep it open
4. Fill out the below worksheet
 - Each Problem requires the following as you work
 1. Ensure there's a comment with your UCID, date, and brief summary of how the problem was solved
 2. Initial outline/plan of how you'll solve it via comments (add/commit after this stage)
 3. Code solution (add/commit periodically as needed)
5. Once finished, click "Submit and Export"
6. Locally add the generated PDF to a folder of your choosing inside your repository folder and move it to Github
 1. `git add .`
 2. `git commit -m "adding PDF"`
 3. `git push origin M2-Homework`
 4. On Github merge the pull request from `M2-Homework` to `main`
7. Upload the same PDF to Canvas
8. Sync Local
 1. `git checkout main`
 2. `git pull origin main`

Section #1: (2 pts.) Problem 1 - Odds

```

$ java M2/Problem1
Running Problem 1 for [muk] [2028-02-18T22:18:54.120614800]
Objective: Print out only odd values in a single line separate by commas
Input Array: 1, 3, 5, 7, 9, 2, 4, 6, 8, 10
Output Array: 1, 3, 5, 7, 9
Problem 2: Original Array: [0, 6, 7, 6, 5, 4, 3, 2, 1, 0]
Output Array: 9, 7, 6, 4, 1
mash3m3: undefined array for 0, 1, 2, 3, 4, 5, 6, 7, 8, 9

```

```
Problem 1: Original Array: [0, 0, 1, 1, 2, 2, 3, 3, 4, 4, 4, 4, 5, 5, 6, 7, 7, 8, 8, 9]
Output Array: 1, 1, 2, 2, 5, 5, 7, 7, 9, 9
Problem 4: Original Array: [9, 9, 8, 8, 7, 7, 6, 6, 5, 5, 4, 4, 3, 3, 2, 2, 1, 1]
Output Array: 9, 9, 7, 7, 5, 5, 3, 3, 1, 1
Completed Problem 1 for [muk] [2025-02-19:22:59:54.194710300]
```

Show full output of executing the program

Saved: 2/19/2025 11:57:08 PM

Item:#2

Weight: 20%

Details:

Direct link to the file in the homework related branch from Github (should end in `.java`)

⇒ Url Prompt

URL #1

<https://github.com/MuhammadKhan621/muk-IT114-006/blob/M2-Homework/M2/Problem1.java>

URL

<https://github.com/MuhammadKhan621/muk-IT114-006/blob/M2-Homework/M2/Problem1.java>

Saved: 2/19/2025 11:57:08 PM

Item:#3

Weight: 40%

Details:

Briefly explain `how` the code solves the challenge (note: this isn't the same as `what` the code does)

⇒ Text Prompt

Your Response:

As the code iterates through arr, the if statement checks if the numbers are odd by doing `% 2 != 0` to make sure the number is odd. The variable `comma` is used to add commas between each odd number.

Saved: 2/19/2025 11:57:08 PM

Section #2: (2 pts.) Problem 2 - Sum

Task #1 (2 pts.) - Edit the `sumValues` method to sum the array va

Combo Task:

Weight: 100%

Objective: Edit the `sumValues` method to sum the array values and present them in a format with exactly two decimal places

Details:

- Only make edits where noted via provided comments
- Challenge 1: Sum all the values of the passed in array and assign to `total`
- Challenge 2: Have the sum be represented as a number with exactly 2 decimal
- Example: 0.1 would be shown as 0.10, 1 would be shown as 1.00, etc
- Step 1: sketch out plan using comments (include ucid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

Details:

Two screenshots are expected

1. Snippet of relevant code showing solution (with ucid/date comment)
2. Full output of executing the program

⇒ Image Prompt

```
17 // Example: 0.1 would be shown as 0.10, 1 would be shown as 1.00, etc
18 // Step 1: sketch out plan using comments (include ucid and date)
19 // Step 2: Add/commit your outline of comments (required for full credit)
20 // Step 3: Add code to solve the problem (add/commit as needed)
21 double total = 0;
22 // Start Solution Edit[] you, 40 minutes ago, adding 40 new baseline files
23 // Solve Challenge 1 here
24 //UCID = msh
25 //Date = 2/19/25
26 for(int i = 0; i < arr.length; i++) //iterate through the array
27     total += arr[i]; // make the values inside array arr equal total
28 // Solve Challenge 2 here
29 DecimalFormat DecimalFormat = new DecimalFormat("0.00");
30 String formatted = DecimalFormat.format(total);
31 //3rd step add all arr values and print it out
32 //2nd step print the total value of arr
33 //1st step have the total sum represented to 2 decimal places
34
35 Object modifiedTotal = formatted;
36
37 // END SOLUTION CODE
38 CUSTOMER OUTPUT: [total has value: "1.00"]
```

Snippet of relevant code showing solution

Section #3: (2 pts.) Problem 3 - Conversion

Task #1 (2 pts.) - Edit the `bePositive` method to make each value

Combo Task:

Weight: 100%

Objective: Edit the 'bePositive' method to make each value positive, convert it back to the original data type, and set it to the proper slot in the 'output' array

Details:

- Only make edits where noted via provided comments
- Challenge 1: Make each value positive
- Challenge 2: Convert the values back to their original data type and assign it to the proper slot of the `output` array
- Step 1: sketch out plan using comments (include `ucid` and `date`)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Item:#3

Weight: 40%

Details:

Briefly explain `how` the code solves the challenges (note: this isn't the same as `what` the code does)

⇒ Text Prompt

Your Response:

The code solves the challenge by checking each array value and turning any negative numbers into positive. `Math.abs()` was used to turn each array into positive. After that, the new values are put back into a new array, making sure the values stay like the original data type they were.

Saved: 2/19/2025 11:44:09 PM

Section #4: (2 pts.) Problem 4 - Strings

Task #1 (2 pts.) - Edit the `transformText` method to solve the challenge

Combo Task:

Weight: 100%

Objective: Edit the `transformText` method to solve the challenges

Details:

- Only make edits where noted via provided comments
- Challenge 1: Remove non-alphanumeric characters except spaces
- Challenge 2: Convert text to Title Case
- Challenge 3: Trim leading/trailing spaces and remove duplicate spaces
- Result 1-3: Assign final phrase to `placeholderForModifiedPhrase`
- Step 1: sketch out plan using comments (include uid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

Details:

Two screenshots are expected

Task #2 (+ 0.90 pts.) - Edit the `transformText` method to solve the

Combo Task:

Weight: 45%

Objective: Edit the `transformText` method to solve the extra credit challenge (challenge 4)

Details:

- Only make edits where noted via provided comments
- Challenge 4: Extract middle 3 characters (beginning starts at middle of phrase)
- Assign result to 'placeholderForMiddleCharacters'
- If not enough characters assign "Not enough characters"
- Step 1: sketch out plan using comments (include uid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Task #2 (0.00 / 0.67 pts.) - WakaTime - Activity

Weight: 33.33%

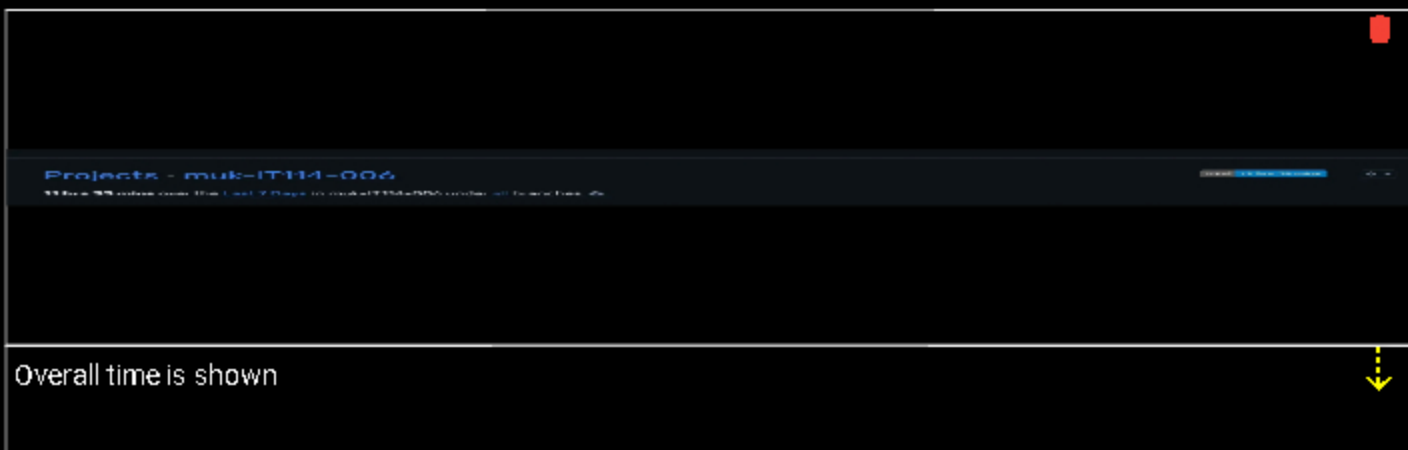

Objective: WakaTime - Activity

Details:

Details:

- Visit the WakaTime.com Dashboard
- Click **Projects** and find your repository
- Capture the overall time at the top that includes the repository name
- Capture the individual time at the bottom that includes the file time
- Note: The duration isn't relevant for the grade and the visual graphs aren't necessary

Image Prompt

The screenshot shows the WakaTime 'Projects' page for a repository named 'muk-IT114-004'. At the top, it displays '11 hrs, 33 mins' as the total time. Below this, there is a large empty space with a yellow dashed arrow pointing downwards, indicating where the overall time is shown.

The screenshot shows the WakaTime 'Projects' page for the same repository. It displays a table with two columns: 'Files' and 'Branches'. The 'Files' column lists various files with their respective times, such as '06 hrs, 06 mins' for 'H2 / Problem06.java'. The 'Branches' column shows '11 hrs, 33 mins' for 'H2-Homework'. Below the table, there is a large empty space with a yellow dashed arrow pointing downwards, indicating where individual file times are shown.

Task #3 (0.00 / 0.67 pts.) - Reflection

Sub-Tasks:

Task #1 (0.00 / 0.33 pts.) - What did you learn?

Weight: 33.33%

Objective: *What did you learn?*

Details:

Briefly answer the question (at least a few decent sentences)

⇒ Text Prompt

Your Response:

For this assignment, I learned how to research different problem-solving methods. I also learned about how iterations work through arrays and how they are stored and edited. Different methods made it easy to perform some tasks. I also learned the struggle or frustration Programmers probably go through but not compared to the more difficult stuff they go through.

Saved: 2/20/2025 12:39:50 AM

Task #2 (0.00 / 0.33 pts.) - What was the easiest part of the assignment?

Weight: 33.33%

Objective: *What was the easiest part of the assignment?*

Details:

Briefly answer the question (at least a few decent sentences)

⇒ Text Prompt

Your Response:

The easiest part of the assignment was most definitely Problems 1 and 2. That is because they were more straightforward problems.

Saved: 2/20/2025 12:41:40 AM

Task #3 (0.00 / 0.33 pts.) - What was the hardest part of the assignment?

Weight: 33.33%

Objective: *What was the hardest part of the assignment?*

Details:

Briefly answer the question (at least a few decent sentences)

⇒ Text Prompt

Your Response:

The hardest part of the assignment was HW 3 and 4. That is because 3 took me a while to complete, and hw 4, I got stuck on challenge 2. Problem 4, challenges 1, and 3 were not that hard because I was going to use methods to solve those, but in challenge 2, I got stuck after the iteration.

Saved: 2/20/2025 12:44:32 AM
